Madrid | Remote or hybrid

Digital product designer focused on AI, with a background in industrial design engineering and five years designing product, brand and web at an industrial manufacturer. Master's in Web and App Design (UX/UI).

PROFESSIONAL EXPERIENCE

Digital and Industrial Product Designer

Mañez y Lozano · Alginet, Valencia | 04/2024 - Present

- Design of industrial products and all of their communication: catalogues, manuals, price lists and a corporate identity manual.
- Design of the official website and online shop.
- Design of additional tools such as a 3D sprayer configurator-explorer, to improve the customer buying experience.
- 3D modelling, 3D scanning, 3D printing, and product photography and retouching.

Product photographer · freelance

Valresa — Nitorlack range | 2022

- Product photography, retouching and composites for catalogue and social media, across six sessions.

Graphic designer

Mañez y Lozano · Alginet, Valencia | 05/2021 - 09/2022

Extracurricular internship followed by a permanent contract

- Design of catalogues, manuals, price lists and trade-fair stands, covering both the graphic design and the elements and layout that make up the stand.
